Strictly cat boarding. No dogs allowed. Clean, quiet and comfortable—that's what our boarders say! Feel secure in knowing your feline family member is in a warm, comfortable environment with experienced staff caring for them.

We also offer medical boarding. Our licensed veterinary technicians will administer your pet's medication.

After hours, one of our veterinarians is on call for our hospitalized and boarding cats.

Select either a regular-size cage or a two-room kitty condo.

Playtime/exercise in a secure area is available upon request.
